

Chapter – 12

Supernatural World

(عالم مثال)

❖ *Supernatural World:*

The phase of Supernatural World comes after the Spiritual World. The Spiritual World is free from figure and shape. In the Supernatural World the figure and shape exist, however there is no time and weight in it. At this stage, Supernatural Things (معانی) take a figure. Rather they appear with such a force that even the people of Material World can see them. For example; Angels are seen in the form of Human beings.

In the Supernatural World things appear with appropriate shapes and forms. For example; Knowledge is seen in the form of ‘milk’. Fever is seen in the form of ‘shattered haired black women’. Rapist is seen in the form of ‘eater of died animals’, Extreme Sickness is seen in the form of ‘buffalo and elephant’. Harmful Man is seen in the form of ‘mosquito’, Wealth is seen in the form of ‘snake’, Cheater is seen in the form of ‘fox’, Thief is seen in the form of ‘crow’, and Man of weak-faith is seen in the form of ‘old man’. Similarly, the Mystical and Celestials are considered like wise.

▪ *Thoughts are of two types:*

1. Attached Thoughts (خيال متصل): These are our illogical, unrealistic, invented and self-created thoughts.
2. Creative Thoughts (خيال منفصل): These are logical, real and true thoughts.

These Creative Thoughts are also known as the Supernatural World. In the Supernatural World, images and spirits come from the Spiritual World and upper stages. Simultaneously, these images and spirits also come from the Material World and its lower phases.

Sometimes thoughts or imageries become more intensive and can be felt in the Material World as well, and sometimes others may see it physically too. -- In the Material World whatsoever is going on is

coming from the Supernatural World. Human thoughts have a connection and relation with the Supernatural World. In other words, a skylight opens in the Supernatural World, from that Man can view and study all the things of the Supernatural World, whether they are related to the past or future.

It should be clearly noted that if anybody could fully concentrate his thoughts then a bright world opens on him whose name is “the Supernatural World” (عَالَمٌ مَثَلٌ). In this, the faces and shapes remain just similar to the Material World (دِبَابٌ), but since the Supernatural World is not dependent on time therefore here things move extraordinary fast.

Closing of wrong desires or evil thoughts and achievement of full concentration on one point, both are blessings. Collection of power, using will-power, efforts to get rid of all the risks, maintaining outer and inner cleanliness, having attention towards souls, seeking help with suitable good names of Allah (SWT), keep remembering God, keep away from light and noises, having attention of Sheikh or Spiritual Guide, and taking constant care of the pupil with your will-power are all such elements which help in opening of the Supernatural World. In short, the more one leaves his personal desires the more he has the chances to openly see the Supernatural World. God has drawn our attention through the following verse in Quran about our thoughts and the Supernatural World:

إِنَّ فِي ذُلِكَ لَذِكْرًا لِمَنْ كَانَ لَهُ قَلْبٌ أَوْ أَلْقَى السَّمْعَ وَهُوَ شَهِيدٌ

{Indeed in this is an advice for anyone who keeps a heart, or listens attentively. (50:37)}

Be noted that the first phase is the Spiritual World, then the Supernatural World comes, and then the stage of Material World comes. In Material World, weight, time, form and shape are present. In Supernatural World, time and weight do not occur; only form and shape exist. Spiritual World is totally free from any form or shape. This can be explained through an example that:

One person whose name is Zaid is sitting in front of me; this is ‘Material World’. Zaid saw himself in a dream where he was gone through the feeling of both happiness and sorrow; this is ‘Supernatural World’. Then Zaid has seen himself in the dream sometime as man, sometime as woman, sometime as child and sometime as an old man. At this stage, we came to know that his personality is entirely free from any gender and age etc.; this is ‘*the place of soul*’.
