Fascinating Dictions

(جادو بیانی)

❖ وَإِذَا رَأَيْتَ الَّذِينَ يَخُوضُونَ فِي آيَاتِنَا فَأَعْرِضْ عَنْهُمْ حَتَّى يَخُوضُوا فِي حَدِيثٍ غَيْرِهِ وَإِمَّا يُنْسِيَنَّكَ الشَّيْطَانُ فَلَا تَقْعُدْ بَعْدَ الذِّكْرِى مَعَ الْقَوْمِ الظَّالِمِينَ .

And when you see those who are engaged in criticism against our signs (Ayahs), turn away from them until they begin to talk on other topics; and if Satan ever causes you to forget (in carelessness), then do not remain in the company of those unjust people, the moment you remember. (06:68)

In this world there are many people who have different exterior but their interior is not the same. They are big orators, big speakers and big preachers, so much so that they win the hearts of the people. They trap them in the net of their speeches. They give assurances on oath very frequently, and say “God knows very well! I am telling you with all my sincerity.” “If I am telling wrong, God should punish me, disgrace me.” But, in reality that fellow is mischievous. He mixes poison in honey. Flows water below grass. First he catches finger then grips the neck.

With all such fascinating dictions day by day new religion is being invented. In the West ‘New Technologies’ are developing, but here new religions, new faiths are emerging. These innovation inclined people have no more connection with Islam. What they do? They use bad words for elders. They negate basic principles of Islam. They do not accept God’s Messenger. They consider God as irrelevant Entity. They say whatever they want. They do whatever they like. But with one condition, that always say very loudly. Create

myths and fallacies. They say stories but with confidence. They keep on repeating one thing. If it is refuted hundred times, still they take stand and keep repeating thousand times. They think that if it is not agreed today it will be accepted tomorrow. So they keep on telling. Never surrender. They know that perseverance and insistence creates power.

When these fake people go away, then they don't care for nation and the country. Selfish attitude and personal motives prevail, no matter Islam destroys and Muslims suffer. These people are only interested in collection of funds. They are attracted by flattering. They are interested in the "Long Live" slogans. Day and night the word "Nation" is on their tongue but by heart they never love.

Dear People! There are two types of human beings:

- Persons who are religious and know the principles of religion. They distinguish between right and wrong. If these people meet with non-religious persons there is no harm in it. Rather, they should meet them and preach Islam.
- Persons who are not aware of religion. They should keep themselves away from non-religious people.

Look! Massive speeches, eloquence, forceful talks and faulty reasoning have great effects.

(Indeed some speeches have magic)

When the ignorant people hear about the program of 'Speeches', 'Lectures' or 'Preaches' they just rush to attend them, no matter these orators are criticizing on religion. Later, some of them realize that they are wrong but they do not show their daring attitude to refute these speakers.

First of all, why you people go to such objectionable places. Yet if you go there due to your ignorance, as soon as you have realization you just come out of it. What the hell you are doing that you have no knowledge, no ability to discriminate about right and wrong still you listen to these cheaters and spoil your faith ----!

Muslims do not give proper education to their children about their religion in the elementary stage. When they become young they start reading misguiding books and spend their time in the company of these frauds. The result is they get affected badly. People should go to the real scholars and remove their doubts from them, if they have any.

Nowadays a wrong concept is also widespread that Scholar is considered to that fellow who can deliver long speeches. He should be able to speak eloquently and forcefully, no matter he is describing story of Amir Hamzah.

Interesting part of it is they hear these speeches for hours, and listen preaches for long, but when they leave the place not a single point is remembered what was said. ---- Only clapping was carried out, slogans were raised; words of praise were loudly spoken; but all fruitless. ---- There were no productive talks so no useful points could be gathered.

How these people of Ahlu-Sunnah are? They can easily be trapped by non-religious people. The basic reason behind this is they do not get proper education at any stage. Whatever they learned that is formal and superficial. They have different doubts in mind but they receive irrelevant answers of it. ---- Anyways, working for this world or doing for Hereafter all are in vain, because of misguidance ---!
