

## Chapter – 78

## Human Nature

(فطرت انسانی)

❖ وَلَقَدْ خَلَقْنَا الْإِنْسَانَ مِنْ صَلْصَالٍ مِنْ حَمَإٍ مَسْنُونٍ -

And surely, We brought man into being, out of dry ringing clay which was wrought from black mud. (15:26)

❖ وَعَلَّمَ آدَمَ الْأَسْمَاءَ كُلَّهَا ثُمَّ عَرَضَهُمْ عَلَى الْمَلَائِكَةِ فَقَالَ أَنْبِئُونِي

بِأَسْمَاءِ هَؤُلَاءِ إِنْ كُنْتُمْ صَادِقِينَ -

❖ قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ -

And He taught Adam all the names (knowledge of the nature and reality of everything); and presented them to the angles and said: “Tell me the names of these, if you are truthful”. (02:31)

They said, “Purity is to You; we do not have any knowledge except what You have taught to us; Certainly, You only are the all Knowing, the all Wise”. (02:32)

Adam's nature is so full of excellence and attributes that no one could surpass him. He knows the facts of all the things. Fire, water, earth and rock all are in his power and custody. All the animals are leaning in front of him obediently. All the standing trees are looking at him steadily and keenly. All the inanimate or inorganics are under his feet. He controls all jinn. ---- When he attains the height of advancement, wearing the two shoes, he goes to the “highest of Heaven”. But when he becomes mad then he even dares to claim for the Almighty power, the God-ship. And when he falls down then goes so deep to the extent of the **أَسْفَلَ سَافِلِينَ** (towards all the lowest of the low states). In this state, he starts worshipping Indian tulsi-tree and fig-tree, fire, earth, snake, and stars etc. Even drinks urine of a cow. ---- Look how much is his height and how deep is his depth ---!

Dear People! Man's competency and skill is unlimited. His knowledge is also immense. Angels or any other creatures all have limited knowledge. They have knowledge of that work only for which they are created. There is no enhancement in their knowledge. Whatever they have they get it when they are created. They have very less thinking and interpretation qualities; rather do not have at all. On the other hand, 'Man' studies things minutely, and plan and execute cleverly. He analyzes the things both partly and totally and then takes out conclusions. At no stage he would like to surrender. He works hard himself and takes help of others too. He refers to the books as wells. He prepares the write-ups too. No matter it is materialism or spiritualism, wherever he shows pursuance he takes out something out of it. Whatever the man has done so far, or now doing or he will do in future, all are details of the "Realities of Human Being". The qualities of grandfather are appearing in grandsons. And our whole excellences are basically originated from "Father Adam".

When God took the exam of man, angel and jinn in respect of knowledge then who became successful? A body of earth 'man' means Adam عليه السلام. Shaytan stood failure in this exam of knowledge. He was built with fire. His nature was mischievous and violent. He started claiming his creation with lighter element and showing himself better than 'man'. This ignorant did not know that man is built with earth but he has fire in him as well. Man is created flawlessly. He can be the perfect exhibit of God. Because for human being God says:

وَنَفَخْتُ فِيهِ مِنْ رُوحِي

{And breathed into him a spirit from myself (38:72)}

Therefore man is the exhibit of God's varied attributes and perfections.

وَفِي أَنْفُسِكُمْ أَفَلَا تُبْصِرُونَ

{And in own selves (there is His charismatic nature); so can you not perceive? (51:21)}

کونسی شے ہے نہیں جو مجھ میں

اک طلسمات کا پتلا ہوں میں

(Which element is there that I do not have?  
I am a body of charismatic nature)

The creation of man with earth/soil is evident. The purpose of mentioning this is to consider about the humiliation that what we were? And how beautiful God has made to us!

Some people say that the initial condition of man was consisting upon very fine particles, which are called **هباء منشورا** (wide open dust). These particles gradually came together and then one soft and hazy body created, which is called nebula. According to one hypothesis our solar system and other different stars were originated due to the gradual deformation in nebulae. This theory is called Nebular Theory.

- *The word “nebula” is Latin for “cloud,” and according to the explanation, stars are born from clouds of interstellar gas and dust. The transition from an undifferentiated cloud to a star system complete with planets and moons takes about 100 million years. According to this theory, our own solar system formed about 4.6 billion years ago, and others are forming today in distant nebulae. - --- Compiler.*

Nebula is in hot and bright condition. In this, first air and gas created, then water and liquid situation appeared, and finally solids and loams came. Later earth and rock produced. When earth developed, vegetation and plants generated. Then the elementary stage of animals came. The first stage was the creation of sponges and leeches. It is followed by baboon and guerrilla. Then the ignorant child (human being) came. And finally the highest degree of man revealed (that is the Prophet).

Nowadays, this discussion is going on that whether human being is the developed form of monkey, or when the lights of sun and stars flashed on earth and as a result man came into existence? This is also told that many insects are produced due to filth, shit and rubbish material.

Look! We should not be involved in all these debates. Man should only know this fact that he is made of earth, no matter from which process he has gone through. A man made up of earth should adopt modesty, and should maintain his sophistication and grace, and that is all ---!

-----
