

Chapter – 08

Illuminati

(شیطانى جماعت)

Before going to the subject of Illuminati it is essential to tell something about 'Freemasonry', because this organization is the real mother of all such movements. The members of this union are called 'Freemason'. In fact it is a Jewish organization that started some two centuries ago. It was established approximately in 1717AD by the ruling group of Britain. Now it has spread all over the world. At present, America is the country where the maximum members connected to this organization exist. The former President of America, Gorge Washington, and the famous German Poet and Statesman Johann Wolfgang von Goethe were among the heads of this organization in their regions. In Europe, many countries have lot of Freemason members in their countries. France is the number one country where maximum Freemasons exist. Although the organization works very secretly yet time has exposed some vital information about their activities.

In most of the important cities all over the world this organization has its working centers that are known as "Lodges". After detailed investigations of the individuals the membership is awarded in this union. It is not necessary for any member that he should belong to any specific religion, native, color, cast or creed. However, the key members of this organization are kings, princes, prime ministers, army officials, important religious leaders, businessmen along with influential social personalities etc. People are first brain washed and mentally trained to become a candid member of the movement. Moreover, they make them truthful and loyal. And finally they are used to work for their plans in such a way that they should not comprehend the real aims of the movement. The main strategy of the Freemasonry is to create love, friendliness and passion among the members. Simple membership of the Lodge gives them complete rights between each other for the fast elevation in their status.

The central body executives of Jewish Freemasonry are called “Zionist”. Zionist are those individuals who are by nature cruel and very hard-hearted. These people want to complete their aims by hook or by crook. They never care if millions of people are killed but they achieve their goals. It is possible that among the Lodge members there are only a few Jews or almost none even then the Lodge is run on the well-established rules that ultimately attains the Zionist objectives.

Freemason group has participated in big incidents, immense happenings and revolutions in the history of Europe and America. Among them, the freedom fighting for America (1765-1785AD) or the famous revolution of France (1789-1799AD) is on top of the list. Before that, this group was not well organized yet they had desire to finish the “Khilafat Movement” of Muslims in Turkey. For this, a group of Jews had adopted fake Christianity, and then they entered into the church and then finally arranged for a full-fledged war which was turned into the famous Crusade War of 1905AD. Despite all such massive activities they always remained behind the scene and at any stage nobody could catch hold of them.

Then after, the next step of Freemasonry was to make the “New World Order”. This was mainly to dictate the world by this Zionist group. It took many years to get success. Their first attempt was to disrupt the powerful system of Muslim Turkish Khilafat Othmania but they could not succeed because they were engaged with the Crusade war. Ultimately, this Jewish group had prepared the stage of the First World War. As a result, Khilafat Othmania was totally collapsed and divided into many small states that include formation of Turkey, Iraq, Iran, Palestine, Jordan and Kingdom of Saudi Arabia. In this whole affair role of the famous Laurence of Arabia was dominant. He was, in fact, an effective member of this Freemasonry.

Above all, this cruel group did not even hesitate for the mass killing of their own religious community. During the Second World War of 1939AD-1945AD, the German Ruler, Hi Hitler had gone for the large killing of those Jews who were very poor. It is said that Hitler was basically a Christian but he was totally in the clutch of Freemason. The ultimate result of the Second World War was that the Jewish Community appeared as an oppressed nation and then in 1948AD they got full justification to make a new Israel State in Palestine. At present, this small state dictates all over the whole world.

Afterwards, the Freemason group had prepared a Gigantic Financial Scheme through which they could rule the whole world. With this plan their aims were to control over the wealth and economy of the entire world.

Since long the business transactions were being carried out with the help of gold and silver currencies. In order to have a control on currency, the Freemason group had introduced a new banking system. Under this scheme, on depositing gold in the bank, "Bank Receipts" were issued. With the help of these "Bank Receipts" onward transactions were executed. People found this system more convenient for their business; as such it became very popular all over the world. Finally banks started printing the regular paper currency notes. In this way, the actual wealth of public began to accumulate in the hands of bank's proprietors and this specific group became richer than rich.

In 1916AD, with the cooperation all the existing banks, it was decided to make a central bank in New York, USA with the name of "Federal Reserve Bank". The main function of this organization was to prepare 'Economic Policies' applicable to the whole world. Then after, they prepared many other economic agencies, out of which the most famous of today are World Bank and International Monetary Fund (IMF). Now the main assignment of these institutions is to provide loans on interest to all the poor countries of the world and ultimately make them poorer and slave. The vital evidence that this paper currency is related to the Freemasonry Group in American is the "One Dollar Note" on which the logo of Freemason is printed.

In Pakistan, the presence of one Freemason Lodge was discovered in the years of seventies. On getting this news the custody of Lodge, which was built before Indo-Pak subcontinent partition, was taken over in 1973 and their activities were barred by the Government. Still they were working secretly. Ultimately in 1983, strong action was taken by the then Martial Law Government and these people were strictly banned in Pakistan. So much so that the military personnel, in particular, were instructed no to join with Freemason, Lions Club, and Rotary Club. Perhaps from that day onward no news for Freemasonry activities in Pakistan was heard.

Illuminati are almost a similar union as the Freemason group is. It is also possible that it may be a subdivision of Freemasonry. Nevertheless, the basic aims of *Illuminati* do not appear to be political. It looks that it is more of a social arrangement. In this group only those person are entitled to become a member who are naturally '*Talented*'. These people like to present new things. They not only wish to become most modern but also have intensive desire to gain fast popularity and to become rich in minimum time.

Illuminati group may have no political aims but it is evident that all their activities are going mysteriously. Rather, their doings are severely affecting the society. By seeing them, at present, everyone wants to follow them and the whole world is now willing to do something 'different' and 'modern'.

The Illuminati group has a strong faith that Shaytan is a big power and he is their well-wisher. They believe that in their success Shaytan is secretly helping them. Throughout the world, Christian community, in particular, is fascinated with this movement. On the other hand, the Protestant Christians think that the Illuminati group is very much like Freemasonry organization, and is an effective group who is not only misleading the people but also making them Atheist. They are making people the believers of Satan. So much so, with their activities they are reaching towards the creation of a "Satanic New World Order". Hence, Protestant Christians refer to this Illuminati group as 'Anti-Christ'

Muslims also consider that the main work of Shaytan is to constantly mislead the people and compel them to go for the evil deeds. By seeing the persons who have adopted the Illuminati methods, it can be felt that these people are very much influenced by Shaytan. Therefore, if Protestant Christians call them as "*Anti-Christ*", then Muslims have every right to consider them as "*Disciple of Shaytan*". Forgetting God and surrendering in front of Shaytan, is a great Polytheism in Islam.

In this group, many types of people and much kind of professionals have joined. However, most of them belong to the "Show Business". Since art is a kind of exhibition, therefore people of art are by nature attracted to this group.

Throughout the world, the largest platform of the Show Business is situated in America with the name of "Hollywood". Today's Hollywood has the domination of Illuminati artists, particularly in their music section. Through them 'Nudity' and 'Satanic Culture' is being blowout widely. This whole affair has now become an industry. These artists perform with minimum dress on their body that gives sexual exhilaration to the common people. When they want to show some satanic acts, they appear with full make-up of horrible and awful faces. Even then millions of people respond them with full appreciation and admire them from every corner of the world. It is because they consider that all these things are "*most modern*" and "*totally different*".

Followings are some examples of these Illuminati artists.

- The latest dances are Tutting, Felexing, Krumping and Turfing etc. These are considered as the Devil's way to lead your soul to hell. The people who are performing these dances say that it has now become 'intoxication' for us. We became so much habitual of it that it is very difficult to pass our day without dance.
- The world famous artist Michel Jackson, who was attached with this Illuminati group for a considerable period, said regarding this dance and Music that:

*"I am **slave** to the rhythm."*

- Lady Gaga, Niki Minaj and Rihanna etc. are those Illuminati artists who are considered as the top most performers of the Hollywood. Their albums and videos are sold very fast and in millions. Their specialty of the so called 'performance' is that they sexually aggravate people with their nudity. And for that they get abnormal fame as well as they are paid extraordinary high money.
- Keisha is considered as one of the popular artists of Hollywood. She says that she worship Satan. With the same mood, she had presented her song in 2013 with the name "Dancing with the Devil". Her video stood extraordinary famous. Their viewers had gone for more than 1.5 million. One can see a horrible and satanic attitude in her performance. The words of the song are also need attention:

*I **sold my soul**. There ain't no **turning back**.
I **keep on dancing with the Devil**.*

- There is one another TV and Hollywood young lady artist, whose name is Jenna Ortega. When she realized that all these things are going wrong, she decided to say good-by to the Illuminati group. She told the reason for her departure as follows:

*"Now I am **not a person**, I am a **product**".*

- It is said that when the most popular artist Michel Jackson decided to come out of this hell, he could not do so, and his death is suspected to be not natural. There are many artists who consider that all these things are wrong and their conscious do not permit to continue with this system, but they cannot come out with this whirlpool.

Hollywood is controlled by Illuminati group. Its music industry has not only acted on the nudity and vulgarity programme in the name

of ‘Entertainment’, but also fulfilled their agenda of ‘Political Supremacy of America’ with the help of their movies. They spread disinformation all over the world so that any sort of interference in any country could easily be possible. Moreover, their films have played very important role spreading “Terrorism” all over the world.

The same Hollywood has projected an idea that Shaytan has the key role for the enhancement in the development of this world. It is also said that the Illuminati group has given an imaginary shape to Satan and his idle has been built. The name was given to that idle as “*Baphomet*”. Afterwards, they mentally prepare the Illuminati members to worship the idle. Now all these people are known as “Devil Worshipers”.

Be noted that when these artists approached to the Hollywood in the initial stage, they were not only having God-gifted talents, but also they joined with beautiful faces and with all their innocence. But when once they were clutched by the Illuminati group, they were presented with negative and disgusting attitudes. As a result, undoubtedly they achieved quick fame, but simultaneously their own talents totally vanished. Their beautiful faces and all their innocence altered into a satanic wildness. A YouTube video titled “*Illuminati Stars - before and after*” is an illustration. In this video, one can clearly see the changes occurred in these artists. (Look at URL Link-2).

The religion of all the central characters of the Illuminati group is Jewish. Here, the basic element to think over is that there is no any concept of Satan in Jewish religion. But today the same Jews are projecting Satan related expeditions to the Christian community. History indicates that these Jews have hanged Prophet Eisa. And at present if they do this mischief with Christian it should not be felt as any strange thing.

Islamic history also tells that these Jews were the main characters who created division and subtraction in Muslim community. It appears that religiously “Intrigue” is the vital part of their faith. Quran also says regarding these people that:

لَتَجِدَنَّ أَشَدَّ النَّاسِ عَدَاوَةً لِلَّذِينَ آمَنُوا الْيَهُودَ

{ You will surely find the most intense of the people in animosity towards the believer (to be) the Jews. (05:82) }
